Brief update

- Background on Kansas program
- Webinar outreach for 6H and 6C rules
- Outreach to The Society of Collision Repair Specialists MO/KS chapter
- Lessons learned

Webinar – Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources (6H) NESHAP – Jan. 22 and Feb. 18, 2009

The Kansas Small Business Environmental Assistance Program (SBEAP) held essentially the same webinar on two different dates. To view the archived version of the Feb. 18 presentation, just click on the title and follow the log-in instructions below. If you would prefer to view only the slides of the presentation (without audio), a pdf version is also available. Please direct any comments or questions to Barb Johnson at 1-800-578-8898.

Paint Stripping and Miscellaneous Surface Coating Operations at Area Sources (6H) - Archived session. See instructions below. | **Barb Johnson, Kansas SBEAP Presentation slides in pdf format**

Archived presentation log-in instructions:

1. Click the presentation title (above) to begin the Webinar session. You will only need to enter a name (or nickname). You do not need to enter a username or password.
2. You will be asked to "Run Wizard" - This is to confirm that your computer has everything it needs (Java software, speakers, etc. - you can skip the microphone section).
3. The archived presentation should then load automatically.
4. Contact Barb Johnson at 1-800-578-8898 if you have any questions about this training or you can also call the K-State Help Desk at 785-532-7722 for further technical support.

Sessions and Access Dates: Jan. 22 and Feb. 18, 2009. **Webinar**
